the doctrines treated in this book are dealt with from the standpoint of biblical rather than dogmatic theology this is evident from the plan which is followed in the work namely to gather together all the scripture passages dealing with the subject under consideration and from them choose a required number that may be called representative then seek to understand the meaning of these references by the study of the text itself as well as its context and parallel passages and finally from the selected proof texts formulate the doctrinal teaching and place such results under

appropriate headings the doctrines of god jesus christ and the holy spirit are more fully dealt with than the doctrines which follow this is especially true of the doctrine of god the reason for this is to set forth the method pursued in these studies and to give a pattern for the study of the doctrines to follow william evans the great doctrines of the bible
